Other Participants

Real Property Token is interested in talking with all participants in Real Estate transactions and services. If you are a service provider and are interested in taking part in our beta tests, please subscribe on the RPT website by clicking [here](#).

We believe it is going to take a number of Real Property Crypto companies to completely disrupt and change the market from 1 that is 100% fiat and allow for cryptocurrencies to enjoy their share.

By crowding together we at RPT know the valuable role we will play in pioneering the change to help perfect an imperfect system, and in the process allow our token holders to benefit.

REVENUE

CRYPTO

Total Market Cap has reached a high in excess of \$200B USD

In the past 12 months, size of market has grown from \$11.3 billion

1669% market growth in 12 months

900% new user + 940% increase in number of transactions in past 4 months

Trading volume averages \$4 - \$10 billion USD per day

REAL ESTATE

Total develop real property globally is \$217 trillion USD

Annual Cross border transactions of more than \$426.8 billion USD

GROWTH

As the banks, lawyers and governments move towards cryptocurrencies, they will become more commercialised and the 1% of people who transact with cryptocurrency will grow exponentially. Imagine the market if just 5% of property transactions were conducted with cryptocurrency.

TRANSITION

Trillions of dollars are spent each and every year on property settlements with billions of fiat dollars paid in transaction fees alone, allowing buyers and sellers to settle their contracts.

As Cryptocurrencies disrupt the financial markets and gain traction they provide an opportunity for all participants to reduce their fees to a fraction of the cost they currently are.

By building a brand now, and creating revenue from day one, Real Property Token will ensure it can be there and capitalize as the market transitions from fiat usage to Crypto usage.
